Recommendation Letter

It is a pleasure to recommend **Mr. Abol Mohamed Oumer** for your esteemed institution. I have known him for the fours years as my student and presently my colleague. He has completed his Bachelor's degree in Information Technology from [Ambo University Institute of Technology Hachalu Hudessa Campus/Ambo University].

As a teacher and colleague I admire his problem solving skills, hardworking and make the environment cool and comfortable.

During his final year project, he demonstrated the ability to work independently with creativity and enthusiasm as well as effectively lead a team of 4 Project Fellows for site selection and data collection technics.

His communication skills put both the subject as well as the interviewer at ease thus facilitating an unbiased and effective data collection.

The Project Fellows in the project always had praises for him. They always mentioned his patience and perseverance in clarifying their doubts on the standardized data collection and analysis techniques.

He is very creative and patient with the students.The lengthy complicated problems would be too tedious for the students so he would often make origami for them as they worked on the complicated problems. He is clearly the best coworker and I strongly recommend him for your organization.

Sincerely,

Mr. Biru Abera (MSc)
